2010 Annual Dinner

The WSS Annual Dinner will be held Thursday, June 10, 2010, at *Maggiannos in Chevy Chase* in Washington, DC. Michael R. Elliot of the University of Michigan and winner of the Gertrude M. Cox Award will be our Guest Speaker. Dr. Elliot will speak about the relevance of probability sampling in the 21st century.

WSS and Other Seminars

(All events are open to any interested persons)

June

- 2 Wed. **The Paperwork Reduction Act Requires Federal Agencies to Get OMB Approval Before Collecting Information**
- 8 Tues. **Trends in Income Nonresponse Over Two Decades**
- 16 Wed. **Expeditionessnesses and delay in state courts: An exploration of case processing time in civil trials**
- 30 Wed. **The OMB Clearance Process for Federal Statistical Surveys**

Also available on the Web at the following URL: <http://web.cos.gmu.edu/~wss/>

Keynote Address

Adrian E. Raftery, University of Washington

“Probabilistic Projections of HIV Prevalence Using Bayesian Melding with Incremental Mixture Importance Sampling (IMIS)”

Short Courses

Tim Gulden Agent-Based Modeling and Simulation

Edward J. Wegman, Statistical Natural Languages and Text Mining

Sponsor

The Interface Foundation of North America

Program Announcement

Title: The Paperwork Reduction Act Requires Federal Agencies to Get OMB Approval Before Collecting Information

Speaker: Rick Westlund
Office of Environmental Information
U.S. Environmental Protection Agency

Chair: Mel Kollander

Date/time: Wednesday, June 2, 2010 / 12:30 - 1:30 p.m.

Location: Bureau of Labor Statistics Conference Center. To be placed on the seminar list attendance list at the Bureau of Labor Statistics you need to e-mail your name, affiliation, and seminar name to wss_seminar@bls.gov (underscore after 'wss') by noon at least 2 days in advance of the seminar or call 202-691-7524 and leave a message. Bring a photo ID to the seminar. BLS is located at 2 Massachusetts Avenue, NE. Use the Red Line to Union Station.

Sponsor: Agriculture and Natural Resources

Abstract: Before requiring or requesting information from the public, the Paperwork Reduction Act (PRA) requires Federal agencies (1) to seek public comment on proposed collections and (2) to submit proposed collections for review and approval by the Office of Management and Budget (OMB). OMB reviews agency information collection requests for approval or disapproval. When OMB approves an information collection, it assigns an OMB control number that the agency must display on the information collection. This presentation will describe the PRA criteria that necessitate OMB review and the approval process.

Point of contact e-mail: Westlund.Rick@epamail.epa.gov

Program Announcement

- Title:** Trends in Income Nonresponse Over Two Decades
- Chair:** Brian Meekins, BLS
WSS Methodology Section Chair
- Speaker:** Ting Yan, NORC at the University of Chicago
- Organizer:** David Judkins, Westat
WSS Methodology Program Chair
- Date/Time:** Tuesday, June 8, 2010, 12:30-2:00pm
- Location:** Bureau of Labor Statistics, Conference Center. To be placed on the seminar attendance list at the Bureau of Labor Statistics, you need to e-mail your name, affiliation, and seminar name to wss_seminar@bls.gov (underscore after 'wss') by noon at least 2 days in advance of the seminar or call 202-691-7524 and leave a message. Bring a photo ID to the seminar. BLS is located at 2 Massachusetts Avenue, NE. Use the Red Line to Union Station.
- Sponsor:** Methodology Section, WSS
- Abstract:** Survey data on personal and household income is usually associated with a large amount of item nonresponse. This talk is adapted from a recent published article by Yan, Curtin, and Jans (2010) that focuses on trends in income nonresponse over the past two decades in the Surveys of Consumers (SCA) conducted in the U.S. SCA asks respondents first to report their income in dollar amounts with an open-ended question. Those who do not provide an answer are followed up with a closed-ended question with income brackets. Analyses indicate that missing data on income has decreased over time, and the decline is related to respondents' overall willingness to participate in the survey and to answer survey questions once in the survey. The results suggest that, for questions on household income, there exists a trade-off between unit and item nonresponse, which may have implications for income estimates and economic modeling.

Program Announcement

- Title:** Expediuousnesses and delay in state courts: An exploration of case processing time in civil trials
- Chair:** Michael L. Cohen, CNSTAT
- Speaker:** Thomas H. Cohen, Bureau of Justice Statistics
- Discussant:** Nicole Waters, National Center for State Courts
- Date/Time:** Wednesday, June 16, 2010 / 12:30 pm - 2:00 pm
- Location:** Bureau of Labor Statistics Conference Center. To be placed on the seminar attendance list at the Bureau of Labor Statistics you need to e-mail your name, affiliation, and seminar name to wss_seminar@bls.gov (underscore after 'wss') by noon at least 2 days in advance of the seminar or call 202-691-7524 and leave a message. Bring a photo ID to the seminar. BLS is located at 2 Massachusetts Ave., NE. Take the Red Line to Union Station.
- Sponsor:** Washington Statistical Society's Section on Public Policy
- Abstract:** The issue of how long it takes for America's courts to process civil cases dates back to colonial times and has been a topic of concern going back into antiquity. Although civil case delay has garnered a great deal of attention, most empirical efforts to analyze this topic occurred over twenty years ago and were limited in geographic scope. This paper attempts to update and enhance our understanding of civil case processing time by exploring factors related to disposition time in civil cases concluded by trial in a national sample of courts located in 156 urban, suburban and rural jurisdictions. The article applies multilevel models to examine both the effects of case and litigant characteristics as well as the influence of locale on case processing time. Results show that the legal issues adjudicated at trial, the type of trial (bench/jury), litigant characteristics, post-trial activity, and surprisingly, alternative dispute resolution referrals, are related to longer case processing times. The models also show locale exerting a significant influence on case processing time irrespective of a jurisdiction's case composition characteristics. This effort to empirically explore disposition time provides scholars, policymakers, and court personnel with information that could be used to assess what types of reform efforts might result in more expeditious case resolution and hence, speedier justice.

Program Announcement

- Title:** The OMB Clearance Process for Federal Statistical Surveys
- Speakers:** Paul Bugg, Brian Harris-Kojetin, and Shelly Wilke Martinez, Office of Management and Budget
- Date/ Time:** Wednesday, June 30, 2010/ 12:30-2:00 pm
- Location:** Bureau of Labor Statistics Conference Center. To be placed on the seminar attendance list at the Bureau of Labor Statistics you need to e-mail your name, affiliation, and seminar name to wss_seminar@bls.gov (underscore after `wss`) by noon at least 2 days in advance of the seminar or call 202-691-7524 and leave a message. Bring a photo ID to the seminar. BLS is located at 2 Massachusetts Avenue, NE. Take the Red Line to Union Station.
- Sponsors:** WSS Data Collection Methods and DC-AAPOR
- Abstract:** The Paperwork Reduction Act of 1995 (PRA) requires that Federal agencies submit proposed information collections to the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget (OMB) before imposing information collection burdens on the public. In this presentation the speakers will describe the relevant aspects of the PRA for agencies and contractors that conduct statistical surveys and note common misconceptions about what is required under the PRA. The presentation will cover the process of an OMB review for surveys and highlight the information required for an OMB submission. Key subsections of agencies' information collection request supporting statement will be discussed including the justification of the need for and utility of the collection, and focusing on the information required for collections that employ statistical methods. The speakers will also address some of the common issues that arise in OMB reviews, and what agencies and contractors can do to anticipate and address these issues.

Student Column

The WSS annual dinner is approaching and includes a presentation by Michael R. Elliot from University of Michigan. Come and join us and meet the WSS members.

In this issue, Gurudev Gadwale, a graduate student, has written about the Statistical Consulting Group at American University:

“The Statistical Consulting Group in American University

The Statistical Consulting Group was set up by the Department of Mathematics and Statistics at American University to assist in comprehensive understanding and analysis of campus-wide statistical concerns, and also undertakes off-campus projects from time to time. The staff consists of first and second-year statistics graduate students and a faculty member who oversees the group's activities. The questions dealt with are mainly related to study design, data analysis and support with statistical software.

The objective of the Statistical Consulting Group is to encourage the graduate students to work with individuals from non-statistics backgrounds and apply their theoretical knowledge to real-world problems. Typically, a majority of the group's clients are graduate students from the Department of Psychology who need assistance with the statistical aspects of their dissertations - design of experiments, interpretation of results, and so on. The main off-campus project undertaken by the group this year was for the Military Times newspaper. We assisted a reporter with the Military Times in designing and analyzing a survey on the “Don't Ask Don't Tell” policy and its application in the military. The results of the survey were subsequently published in the paper.”

We are here for sharing our experiences and learning from each other's activities. Let's make a powerful network with your support and contribution.

Parisa Meisami
Student Representative

Announcement

You are cordially invited to the
2010 Jeanne E. Griffith Mentoring Award Ceremony

on

Wednesday, June 23, 2010, at 4:00 pm

Seminar Room 3, Bureau of Labor Statistics Conference Center

2 Massachusetts Avenue, Washington, DC

The 2010 Awardee is:

Deborah H. Griffin, U. S. Bureau of the Census

The ceremony, as in previous years, will be held in the BLS Conference Center, down one flight, after entering the building through the First Street entrance.

The BLS building is a secured facility, thus those wishing to attend must have their names on the BLS "visitor entrance list" for that day AND have a photo ID with them.

If you plan to attend, please send an e-mail to Stella Godbolt, Bureau of Labor Statistics, at godbolt.stella@bls.gov. **Responses are due by Friday, June 18.**

The Jeanne E. Griffith Mentoring Award is managed by the Government Statistics Section of the American Statistical Association. Sponsors of the award are:

The Government Statistics Section, ASA

National Opinion Research Center (NORC)

American Institutes for Research

Washington Statistical Society

The American Educational Research Association

The Council of Professional Associations on Federal Statistics

The Interagency Council on Statistical Policy

Employment

As a service to local statisticians, *WSS News* provides notification of employment opportunities and description of those seeking employment here in the Washington, DC, area. Readers are encouraged to take advantage of this feature of the newsletter. The deadline for inserting notices is five (5) weeks before the publication date. Those interested should email or call Anne Peterson, at apeterson@insightpolicyresearch.com or (703) 373-6645.

WESTAT AN EMPLOYEE-OWNED RESEARCH CORPORATION

WESTAT is an employee-owned corporation headquartered in the suburbs of Washington, DC (Rockville, Maryland). We provide statistical consulting and survey research to the agencies of the U.S. Government and to a broad range of business and institutional clients. With a strong technical and managerial staff and a long record of quality research, Westat has become one of the leading survey research and statistical consulting organizations in the United States.

Our company was founded in 1961 by three statisticians. The current staff of more than 1,900 includes over 60 statisticians, as well as research, technical, and administrative staff. In addition, our professional staff is supported by data collection and processing personnel situated locally and in field sites around the country. The work atmosphere is open, progressive, and highly conducive to professional growth.

Our statistical efforts continue to expand in areas such as the environment, energy, health, education, and human resources. Westat statisticians are actively involved in teaching graduate-level courses in statistical methods and survey methodology in collaborative arrangements with area colleges and universities.

We are currently recruiting for the following statistical position:

Survey Sampling Statistician (Job Code WSS/DRM/90001)

A total of 3 or more years of relevant experience in sample design and selection, frames development, weighting, imputation, and variance estimation. Applicant must have a master's or doctoral degree in statistics and have excellent writing skills. Coursework in sample survey design is highly desirable.

Westat offers excellent growth opportunities and an outstanding benefits package including life and health insurance, an Employee Stock Ownership Plan (ESOP), a 401(k) plan, flexible spending accounts, professional development, and tuition assistance. For immediate consideration, please send your cover letter, indicating the Westat Job Code, and resume, by one of the following methods to:

Job Code is REQUIRED to apply.

CLINICAL TRIAL BIOSTATISTICIANS

The Biostatistics Center
The George Washington University

To serve as Co-Investigator or Principal Investigator (Project Director) and to provide statistical direction of the design, conduct and analysis of studies and the conduct of methodologic research to meet the projects needs. Basic Qualifications: Doctorate in Biostatistics, Statistics or Epidemiology, or alternatively an M.D. or Ph.D. in Biological Science, Physical Science or Computer Science with a Masters in Biostatistics or Statistics, 1-5 years' experience with clinical trials, especially study design and statistical analysis of study results using SAS, excellent oral and written English communication skills, and supervisory experience. All interested applicants at the rank of Assistant Professor in Biostatistics or Statistics may apply for the Samuel W. Greenhouse Biostatistics Research Enhancement Award. For a period of 1 year, the award will provide 20% effort for methodological research, professional activities and travel. Review of applications is ongoing until the positions are filled. For complete information and application procedures, please visit our website at: www.bsc.gwu.edu. Only complete applications will be considered.

The George Washington University is an Equal Opportunity/Affirmative Action Employer.
